

5 JUICY QUESTIONS FOR...

Tim Hassall,

29, Singer/Songwriter. His latest album, *Memory of a Moment*, releases early this year.

1 **What are three of the most important qualities in a woman, in your opinion?**
A good sense of humour, creativity, and intelligence.

How do you stay healthy when you're on tour?

I eat well—I'm a picky eater—and stay active. I do a lot of yoga and surf a lot, and like to base my activities on where I am.

2

3 **Do you have a muse?**

My muse is everything—being in nature, connecting with people, the ocean. Being close to energy but not being distracted by it.

What's the most romantic thing you've ever done?

After a gig I finished at midnight, I took a girl to a desert resort for an impromptu trip. I also once met up with a girl I dated long-distance for a date in Buenos Aires!

5 **What might surprise us about you—do you have any hidden talents?**

In the last year, I've become quite obsessed with dancing—contemporary dance, ballet and street jazz—and I even joined the Broadway Dance Center in NYC last summer! I was also a pretty good rugby player when I was at university.
