What still boggles your mind about women?

What doesn't? They're just so different in each and every way! They're a mystery, but one you couldn't live without—that's part of the beauty and the challenge I suppose, though I'm not sure if you can ever really "figure out" a woman.

You have a crazy schedule based around a lot of nightlife—that must put pressure on a relationship. How do you handle that?

Well on the flip side of that, I also get a lot of time during the day.

I'm pretty mindful of time away from work. At times it does put a bit of pressure on [a relationship], but I recognise the need to switch off and not be working all the time, not thinking or talking about work... so when I'm actually with someone, I'll make time and it'll be quality time dedicated to whoever I'm with.

When was the last time you cried?

I actually cry all the time in movies —anything with any sort of sentimental angle; I'm a pretty sentimental guy, I suppose. Obviously, I always pretend I've got something in my eye! I sound really soft now right...?!

Finish this sentence: I could never be with a woman who...

was really narcissistic. I think vanity is really unattractive—that's a really big turn-off for me.

What's your idea of the perfect date?

Something involving live music, a little bit of comedy, great food, and something outdoors, maybe under the stars.
